Sun	7/28/2024						

### Planning notes:

- Dockwa reservation openings vary by location.
- Only two nights in nights in Provincetown due to return distance, canal current windows, and relatively high cost for stays.
- Points beyond Onset on the return passage are subject to contending with a hazardously choppy channel for small craft in the afternoons with prevailing SW winds.
- Red Brook Harbor and Cuttyhunk Inner Harbor channels experience shoaling and make low tide entries/departures more difficult.
