Cruise Mission Statement

To spend time cruising with like-minded coastal cruising enthusiasts

in a way that promotes numerous options for camaraderie as well as independence

so that mariners of various experience, personality and interests are supported to ensure safety, learning, and memorable satisfaction

Summer Cruise Guiding Principles

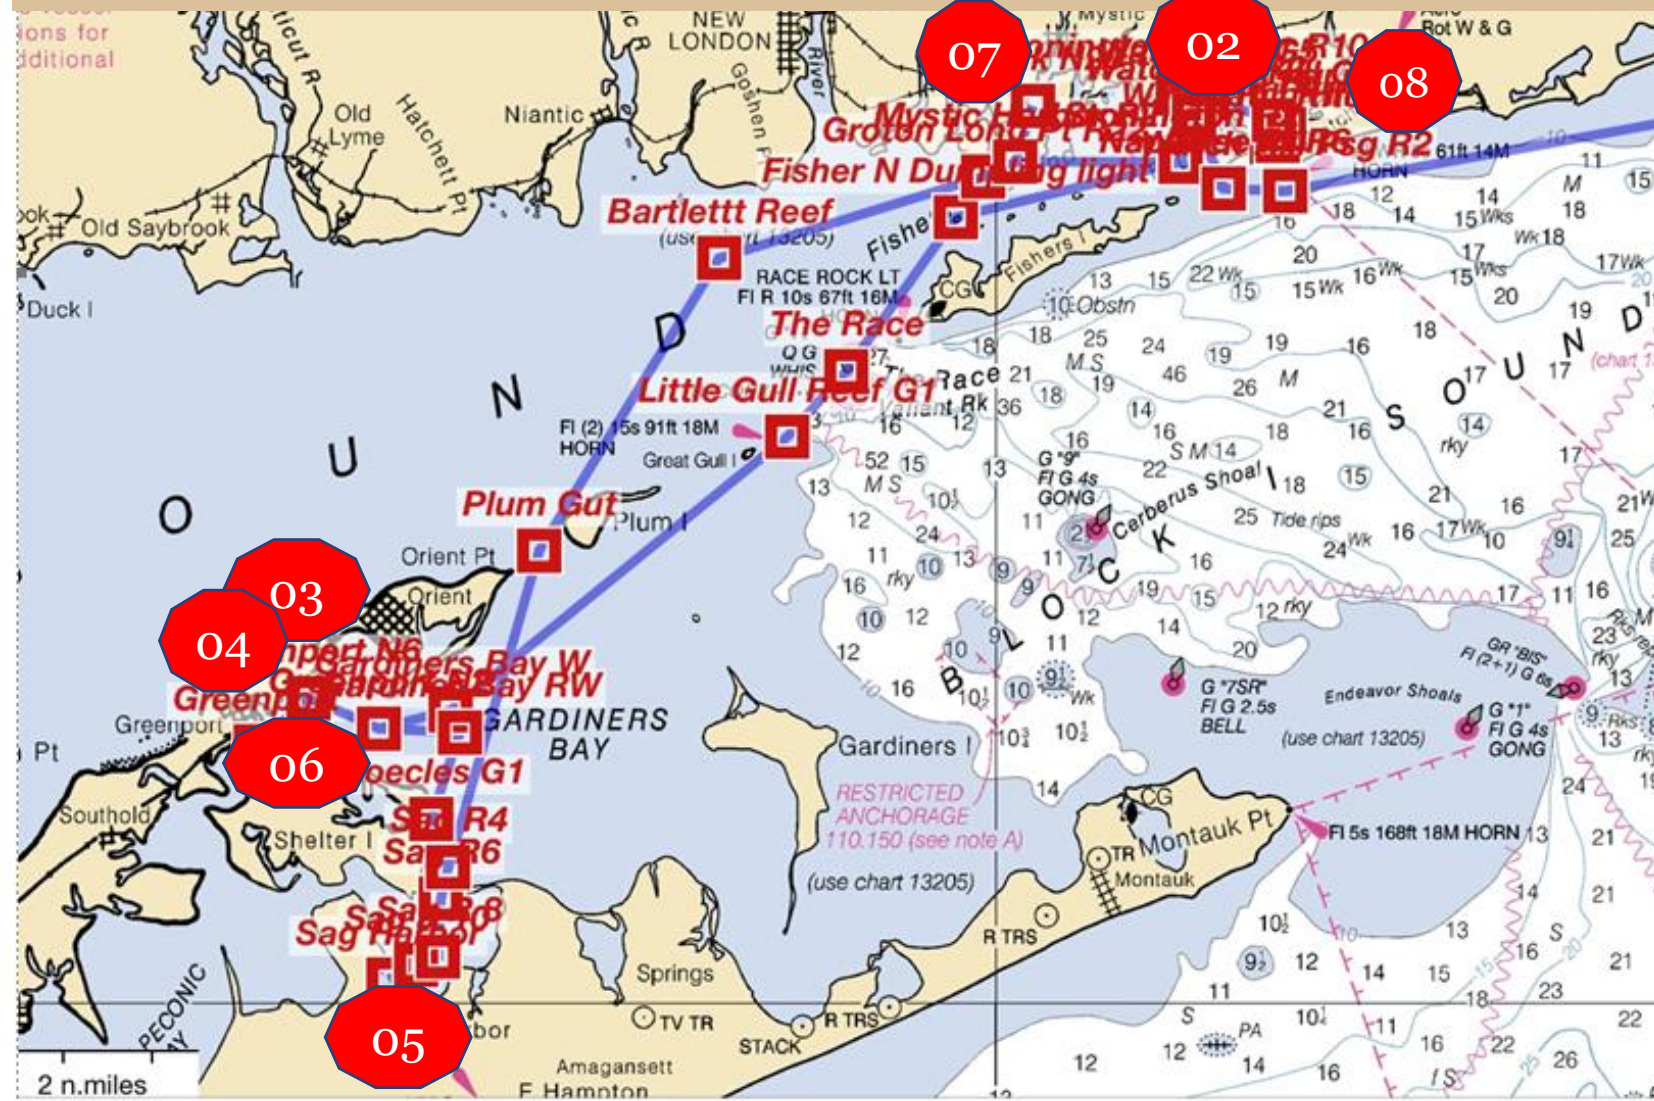

1. **Safety of the Fleet** in itinerary design and all decisions while under way
2. **Individual Accountability**...ultimate decisions rest with each boat captain
3. **Inclusivity & Communication**...if you fall behind you will not be left behind
4. **Coordinated Flexibility**...daily port activities, join as you wish
5. **Take Nature Seriously**...everything else is fair game
6. **Experiential Growth**...the same old same old is found at home
7. **Personal Generosity**...don't keep your gifts a secret

Itinerary Design Considerations

- Customary cruise window July 24-Aug 1
- Both marinas & anchorages for variety, cost control, and community (or lack thereof)
- All stops are proven favorites...we play only the hits
- Alternate long and short legs for weather delay recovery
- 25nm max per day and ride current whenever practical
- Leisurely breakfast yet get where we're going by 3:00pm
